MATH BEYOND TIME AND SPACE

2025

A NATIONAL LEVEL INTER-COLLEGIATE FEST

ON 24TH JANUARY 2025

MANTHANEIN

The Department of Mathematics & Statistics under the flagship of MAF-DELECANS club is organizing a National Level Inter-Collegiate Fest on 24th January 2025. This one-day event is packed with a variety of engaging activities, including Mathematical and non-Mathematical events.

This fest is an unique opportunity for participants to demonstrate their skills, engage with like-minded individuals, and explore new Mathematical concepts. Manthanein is not just about competition; it's a platform for learning, collaboration, and discovery.

Whether you're looking to dive into complex problems, or enjoy a casual Math game, Manthanein has something for everyone.

Come and be a part of Manthanein, where numbers come alive, equations tell stories, and every challenge is a chance to grow. It's a day dedicated to celebrating the joy of Mathematics!

MATH BEYOND TIME AND SPACE

Time and Space are not just concepts; they are a canvas, and mathematics is the brush that paints its infinite.

From the elegance of geometry to the mysteries of calculus, discover how math unravels the fabric of existence, guiding us through both the known and the unimaginable. This year's fest takes you on a journey beyond the familiar, exploring the infinite dimensions, alternate realities, and the unseen forces that shape our universe. The very fabric of reality is woven from pure thought, offering a glimpse into the limitless possibilities of mathematical existence. Welcome to a world where logic transcends the ordinary, and the unknown is waiting to be explored, where Impossible meets possible.
